

An Informative Half-day Workshop:

Fleet Safety

1 Who Should Attend . . .

This workshop is a must for anyone concerned about health and safety on the job including:

- ▶ Managers concerned about liability and workers' compensation costs
- ▶ Employees who want to learn proper techniques for protecting their safety and health at work
- ▶ Business owners who want to learn about compliance with Michigan Occupational Safety and Health Administration (MIOSHA)

2 Why You Need This Workshop . . .

- ▶ To reduce disabling injuries and illnesses to employees - and to ensure that every worker goes home safe and healthy every day.
- ▶ To reduce the high costs of work-related injuries. Nationally, employers spent an estimated 50.8 billion on wage payments and medical care for workers hurt on the job. (*Liberty Mutual Safety Index 2005*) This is only a portion of the total costs of work-related injuries. Indirect costs such as overtime, training and lost productivity can also burden employers.
- ▶ To enhance your company's bottom line. A strong safety and health commitment not only protects workers, it also reduces workers compensation costs, improves employee morale, and increases production and quality.

3 What You'll Learn . . .

Regardless of the industry, vehicular accidents are a major cause of injuries and death in the workplace. Do you have a driver safety program in place to actively train and test your drivers? Do your drivers have defensive drivers training? Do you investigate every vehicle accident/incident no matter how minor? If you answered no to any of these questions, attending this presentation may provide you the information you need to set up an effective fleet safety program. Statistics is also part of this presentation.

Agenda

We offer a flexible program agenda to emphasize the health and safety topics you want most.

- ▶ Michigan and National Statistics for Vehicle Accidents
- ▶ Sample Fleet Safety Programs to Implement
- ▶ Workman's Cost Comparisons for Vehicular Accidents
- ▶ Causes of Accidents
- ▶ Vehicle Inspection Items - Employee Responsibilities

Facilitator

Karen was appointed to the Consultation Education and Training Division of MIOSHA in 1992. She is an occupational safety consultant working in the Washtenaw, Oakland, Wayne and Livingston counties providing consultative advice and training opportunities for both employers and employees. Prior to her position at the Bureau, Karen worked as a Loss Control Consultant in the insurance industry, which gave her insight to workers' compensation, property and liability issues while assisting clients with their safety programs.

Karen graduated from Grand Valley State University with a Bachelor's degree in Occupational Safety and Health.

Karen Odell
